A COLLECTION OF GORGEOUS SPRING-FLOWERING BULBS.

100% GUARANTEED TO GROW & BLOOM

IT'S EASY

Prepare the soil ...Dig the planting bed to a depth of 12 to 18", using a garden fork and spade. For larger areas, you may want to use a rototiller.

Plant your bulbs ...Be sure to note the depth at which your bulbs should be planted – this is very important. Bulbs planted too deep or shallow may not bloom. Add a measure of bone meal to the hole at planting time.

Water well ... then enjoy! There's nothing else to do. Your bulbs will bloom reliably come spring and for years thereafter.
