Parents, Grandparents and Teachers agree that **ITZAZU® COLOR CHANGING HAND SOAPS** are a great tool to help get kidz to wash their hands. **ITZAZU®** has formulated it's color filled "Chase the Bead" technology to pop and change the suds from white to a designated color during a 15-20 second hand-washing session. According to the Center for Disease Control ("CDC"), 15 to 20 seconds is the proper amount of time required to help lift the microbes (germs) off the hands. **ITZAZU® HAND SANITIZERS** kills 99.9% of germs on contact! A great way to sanitize hands if water is not readily available. This hand sanitizer won't leave hands sticky or dry; the formula contains moisturizers that will leave hands soft and moist. Kidz will love the "sparkle" color which does not show up on hands.
