- Surveys continue to show that gardening is the most popular hobby/outdoor activity in American households.
- **Page's Seeds** is an **American owned and operated company** with over 110 years of gardening experience.
- All packaging and sales materials are produced from post consumer recycled paper. As for our product... seeds are the original eco-friendly product!
- All of our seed products exceed state and federal standards for quality. The individual seed packets are the same ones found at quality retail locations nationwide.
- Dare to Compare -- These packets sell at retail locations for \$1.59 per packet. The \$15.00 Salad Spectacular Garden Collection contains 10 of these packets... an over \$15.00 retail value. That's a value your buyers will be happy to purchase from your school's organizations year after year.
- We've taken our years of gardening experience and developed twelve (12) popular usage products that will appeal to just about every household. Large garden, small garden, windowsill garden, urban, rural, flowers, vegetables... we've designed a product for everyone!
- By grouping our products into popular gardening themes, we've made it easy for the buyer to make a buying choice. You should expect many buyers to select more than one product! Selling prices range from \$5.00 - \$15.00 making them an affordable purchase for everyone and boosting your product sales! No items over \$15.00!
- For seller's sort/pack, just send us the bottom strip from each seller's order form.
- There is no start-up costs with this program and we pay shipping to one location.
